OBJECTIVE

Dedicated full stack developer seeking a challenging role in a growth-oriented organization where I can apply my technical expertise in modern web technologies, front end frameworks, database management systems, and server-side programming to build scalable web applications and responsive user interfaces. Passionate about writing clean code, debugging complex technical issues, and collaborating with cross-functional teams to deliver efficient solutions while being responsible and adaptable in achieving project goals through continuous learning of new technologies and industry trends.

EDUCATION

The New College	2022 - 2025
Bsc Computer Science	
Government Muslim Higher Secondary School	2021 - 2022
HSC	
Government Muslim Higher Secondary School	2019 - 2020
SSLC	

SKILLS

Programming Languages: Python, Java, JavaScript (ES6+)
Web Technologies: HTML, CSS, React, Angular, Vue.js
Database Systems: MySQL, MongoDB
Additional: Typing Skills

CERTIFICATIONS & TRAINING

Full Stack Web Development Certification	Jan 2024 - Nov 2024

Stepux Software Training and Job Assistance Center

Key Technologies & Frameworks:

- Developed full stack applications using MERN stack (MongoDB, Express.js, React, Node.js) and MEAN architecture (MongoDB, Express.js, Angular, Node.js) with focus on designing scalable web applications
- Built responsive front end interfaces with React and Angular frameworks, implementing modern JavaScript ES6+ features and applying programming logic for enhanced user experience
- Designed and managed database systems using both SQL (MySQL) and NoSQL (MongoDB) for efficient data storage and retrieval
- Created robust server-side applications using Node.js, Flask, FastAPI, and Django frameworks with responsible development practices
- Implemented RESTful APIs and GraphQL for seamless application programming interfaces
- Applied version control using Git for maintaining code stability and collaborating with development teams
- Conducted unit testing with Jest, integration testing, and API testing using Postman
- Utilized development tools including VS Code and MongoDB Compass for efficient project management

Project Experience:

- Built responsive web applications with attention to detail, focusing on user interface design and front end development using various front end frameworks

- Developed server applications with clean architecture, ensuring scalability and performance while maintaining responsible coding practices
- Collaborated with teams on various projects, demonstrating strong problem-solving skills, analytical thinking, and ability to adapt to changing requirements
- Maintained application stability through systematic debugging and troubleshooting of technical issues
- Adapted to new technologies quickly, staying current with industry trends and programming best practices to achieve project goals
- Created efficient database queries and optimized data retrieval for improved application performance through logical designing approaches
- Worked closely with designers to implement pixel-perfect user interfaces and enhance user experience in web applications

LANGUAGES

Tamil, English, Hindi

CORE COMPETENCIES

- **Full Stack Development:** Experienced in developing end-to-end web applications with modern frameworks and responsible development practices
- **Database Management:** Proficient in designing, managing, and optimizing both SQL and NoSQL database systems with logical approaches
- **API Development:** Skilled in creating and maintaining RESTful APIs and GraphQL endpoints with logical architecture and efficient logic implementation
- **Front End Technologies:** Expert in building responsive user interfaces using HTML, CSS, JavaScript, React, Angular, and Vue.js front end frameworks
- **Server Side Programming:** Strong background in Node.js, Python frameworks (Flask, FastAPI, Django)
- **Version Control:** Proficient in Git for code management and team collaboration
- **Testing & Quality Assurance:** Experience in unit testing, integration testing, and API testing methodologies
- **Team Collaboration:** Effective communication skills with experience in cross-functional teamwork and ability to adapt to different working environments
- **Problem Solving:** Strong analytical and troubleshooting abilities for complex technical challenges with responsible approach and logical thinking to achieve goals through collaborative teamwork
- **Continuous Learning:** Committed to staying updated with emerging technologies and industry standards while designing innovative solutions for web applications
